VVT Solenoids

BUILT FROM THE GROUND UP

Our new Variable Valve Timing Solenoids are built from the ground up using precise manufacturing and quality control. The advanced technological design integrated in our solenoids helps restore engine performance.

- Meets or exceeds OE specifications for fit, form, and function
- 100% End of the line testing
- Function and Reliability Tested
- Rubber seals are compatible with today's synthetic oils and blends
- Machined to precision tolerances preventing leakage, wear and seizing
- Corrosion resistant solenoid enclosure and mounting brackets
- Restores fuel economy

IRIDIUM XP ENHANCED ALLOY TECHNOLOGY™

AUTOLITE'S MOST TECHNOLOGICALLY ADVANCED PLUG

NOW WITH LIFETIME LIMITED WARRANTY

Upgrade to Iridium

The Iridium XP is Autolite's most technologically advanced plug ever. These spark plugs provide better durability and a more focused ignition for better overall ignitability and optimum performance.

- Iridium enhanced 0.6mm finewire design for optimal durability and performance
- Platinum ground wire for maximum efficiency in all ignition types including DIS systems
- V-trimmed ground electrode for improved ignitability
- Heat range precisely set by Ionization Sensing Technology

CarCareCenter

WANT TO GROW YOUR BUSINESS?

Let Parts Plus help...with the exclusive Car Care Center Program

- Consumer rebate programs that attract new clientele, while enhancing value and service to existing customers
- Exceptional marketing support
- Best technical and business management training
- Nationwide warranty program
- A complete Tool and Equipment Program
- Independent ownership and operation

The Parts Plus Car Care Center program is not just a binder and a curb sign, but a complete support team that knows how to help you make a difference.

If you think the Parts Plus Car Care Center program might be right for you, contact your local Parts Plus Store for more information.

Answer: Three year unlimited

MOOG Complete Knuckle Assembly

The Problem Solver

Pre-assembled unit includes these premium components:

EASY TO INSTALL – SAVES UP TO 1.5 HOURS!

The new MOOG® Complete Knuckle Assembly is designed to make troublesome bearing replacement easier. It saves the time required to locate and source multiple parts.

Pre-assembled part eliminates the need for special tools or a press, resulting in easier installation and time savings of up to 50%.

DORMAN
NEW SINCE 1918

Check Dorman First
www.DormanProducts.com

Timing Chain Guide Bolt

Dorman's timing guide bolt reduces labor time by eliminating the need to remove the cylinder head during installation, significantly reducing repair costs and saving money. Plus, Dorman's direct replacement timing guide bolt is engineered to stronger specifications over the original part for a longer service life.

#917-954 | APPLICATIONS: General Motors 2015-00, Saab 2010-03

Inverter Water Pump

Dorman's OE FIX solution features an inverted redesign of the motor, which provides a more stable position for a longer and reliable service life. Sold as a complete unit, the primary function of this pump is to provide the steady flow of coolant to the inverter to maintain normal operating temperatures. Quality testing on this part includes on-vehicle testing.

#601-015 | APPLICATIONS: Toyota Prius 2009-04

Stainless Steel Brake Line Kit

This preformed kit saves shop time by eliminating bending, cutting and flaring. The re-engineered brake line material has been upgraded to resist corrosion. Stainless Steel Brake Hydraulic Lines carry pressurized fluid from the master cylinder to the brake caliper or cylinder at the wheel.

#919-154

APPLICATIONS: Cadillac Escalade 06-03, Chevrolet Tahoe 06-03, GMC Yukon 06-03

Stainless Steel Fuel Line Kit

This preformed kit saves shop time by eliminating bending, cutting and flaring. This kit addresses common environmental corrosion failure by upgrading the fuel line material to stainless steel. Additionally, the preformed section design ensures an exact fit, adding another layer of convenience.

#919-810 | APPLICATIONS: Chevrolet Silverado 1500 03-99, GMC Sierra 1500 03-99

POWERSTOP

Introducing Power Stop® Coated Rotor Program Featuring Genuine GEOMET® 360 Coating

EVOLUTION COATED
GENUINE GEOMET® 360 COATED ROTOR

Power Stop® is pleased to announce the introduction of its Evolution Coated Premium Rotor Upgrade. The entire brake rotor is treated with a thin layer of Genuine GEOMET® 360 coating which protects against rust and corrosion without influencing the vehicle's braking performance. The aluminum silver color of GEOMET® 360 integrates perfectly with the style and design of today's open alloy wheels.

Power Stop® Delivers Powerful Marketing Advantages

- Genuine GEOMET® used by leading OEM's worldwide.
- Power Stop® Evolution Coated rotors are priced to compete with brands using an inferior, imitation coating.
- Evolution Coated rotors are reverse engineered from OEM samples. The number of cooling fins, plate thickness, and rotor weight are all comparable to the OEM specifications. Each rotor is balanced to within 3 in-oz weight.
- Per OE (Original Equipment), over 120 Euro applications are High-Carbon, ECE-R90 certified.
- Over 470 SKUs and growing! Targeting vehicles manufactured from 2009.

GM Truck MOOG® Control Arm Bump Stop – K201426

Improved Durability and Performance

The MOOG® Problem Solver® K201426 Bump Stop for GM trucks features design enhancements and premium materials that provide improved durability and performance.

K201426 features a revised geometric shape for longer life. The original equipment design is constantly affected by the weight and torque forces of these trucks and their loads, and may cause failure over time.

In addition, the MOOG K201426 bump stop is made from an enhanced microcellular urethane material that has an optimized spring rate to provide an exceptional ride, excellent load handling capability and long-lasting durability.
